## Fun Fabric Postcards

### Supply List

An exercise in loosening up!

And the cards can be mailed to loved ones! You can focus on just one postcard for the day or make several.

We'll be collaging and fusing shapes onto small fabrics and card stock; then doing some decorative machine stitching for finishing touches. Therese May will show you all the steps.

Therese May will provide **kits** for this class and they will consist of a variety of materials, including Wonder Under, transparent and metallic fabrics, cards and precut batting.

Bring some of your favorite scraps, a variety of colors, light and dark and some small to medium prints with images you like. Make two or three of the scraps at least 5"x7". In our class process you can cut out already existing flowers and figures from patterned prints and make an interesting visual statement.

Bring Thread—lots of colors

Bring Sewing Machine with embroidery stitches

Bring Scissors
